

BEARS HAD A DAY

And Had Full Control of New York Stocks.

REPORT OF GOLD SHIPMENTS

To This Side Steadied the Market. Prices at the Close Were Higher Than on Saturday.

NEW YORK, July 31.—Money on call has been easier, ranging from 3 to 1½ per cent per diem; last loan at 3 per annum and closing offered at 3 per cent.

Post office rates, \$4.50 to \$5.00.

Government bonds have been weak. This week opened with great depression on the stock exchange. The bears were in full control of the market, owing to the decline in Americans in London, the reports of financial embarrassments in Chicago, the further break of wheat and the difficulty of obtaining time money. Call loans here opened at 3 per diem and interest, and there were apprehensions of a squeeze. The active stocks yielded anywhere from 1 to 3 per cent, the dividend and non-dividend shares suffering alike.

Among the specialties Fullman broke 9 to 13½ and American Tobacco 7 to 34. There was very little support from the professionals identified with the bull side of the account. When the demand to borrow set in it was found that some of the active stocks like Western Union, General Electric, New York Central, Standard Oil, and others had been commanded away at 1½ to 2½ per cent per diem or more, and a deposit to liquidate made it difficult, in the meantime, for New York was reported. These advances were corroborated to some extent by the exchanges in London, which showed the break in the price of the latter. The announcement that the New York clearing house had issued \$2,250,000 loan certificates had a comparative little effect, it being understood at it was for the purpose of assuring gold importations.
